About this Program

Reading time for the entire document: less than 5 minutes.

As a global leader in dental education, New York University (NYU) College of Dentistry is known for its groundbreaking advancements in clinical practice and research. Through the Linhart Continuing Dental Education Program, NYU offers you the unique opportunity to integrate American dental standards into your practice, ensuring you stand out in an increasingly competitive healthcare market.

Scientific Program:
The scientific and educational content of this program is both unique and dynamic, designed specifically around the American education system. Each module is adjusted based on feedback from participants in the previous module, creating a personalized learning experience for every class. This approach ensures that each session is highly tailored and effective. By using an adaptable structure, all participants receive a program that meets their individual learning needs, without the limitations of a rigid, predefined, and potentially unsatisfactory format.

Key Benefits:
Strategic Investment:
Start seeing returns on your investment before the program even ends, thanks to the immediate application of advanced techniques.
Global Prestige:
Gain recognition from one of the world's most renowned dental institutions, boosting your professional stature and patient trust.
Patient Attraction:
Graduates of this NYU-validated program naturally draw in well-informed patients, leading to more rewarding and complex cases.

Learn From Experts

This international dental education program is specifically designed to meet the educational needs of dental groups to “learn from the experts”. Faculty is carefully selected from throughout the world for their teaching and communication skills, clinical and/or research expertise and experience. Trough informative and stimulating lectures, interactive group discussions, treatment planning sessions, “live” patient demonstrations, participant written reports and clinical case requirements, this practical and innovative learning approach will expand your horizons and increase your confidence in pursuing clinical excellence. Below you can find some of the mentors involved in this program.

Dr. Dean Vafiadis

“Facial Aesthetics: Changing Lives”

Over the past 5 years, many technologies have merged to allow clinician the opportunity to restore.

Dr. Stephen Chu

“Managing Esthetic Failures on Anterior Dental Implants: Etiologies & Treatment Solutions: Etiologies & Treatment Solutions”

Esthetic failures associated with dental implants in the esthetic zone can be one of the greatest challenges facing the dental team.

Dr. Galip Gurel

“Reflecting Personality into Smile Design”

The final esthetic results may fail to meet the patient’s expectations due to disharmony between the smile design and the patient’s personality.

Dr. Yoshi Goto

“The Current Trend of Anterior Teeth and Implant Management in Private Practice”

Implant treatment has been standard care in modern dentistry for replacing natural teeth for several decades.

Learn From Experts

Dr. Ernesto Lee

"Innovative Solutions for Anterior Implant Therapy: Superior Esthetics and Decreased Treatment Time"

Contemporary implant therapy aims to provide predictable esthetic outcomes, while decreasing treatment duration and complexity.

Dr. Andres Ponce

"Planning for Success in Cosmetic Dentistry"

Embark on a transformative journey towards excellence in cosmetic dentistry, where precision planning, clinical photography, and cutting-edge digital tools converge to elevate your practice to new heights.

Dr. Fabio Scutella

"Ceramic Materials: Selection Criteria Based Upon Mechanical and Aesthetic Behavior"

Today the restorative dentist has a wide range of materials to choose such as: hybrid composite, lithium di-silicate, cubic and tetragonal zirconia.

Dr. Newton Cardoso

"Excellence in Dental Aesthetics: A Consequence of Habits"

Achieving excellence in Aesthetic dentistry more than an artistic approach is a question of following a systematic methodology to reach predictable results:

Dr. Larry Rosenthal

"The Power of Aesthetic Dentistry"

With the Proper Vision, Approach, and Treatment plan you will learn from both Simple and Advanced Cases.

Why NYU?

New York University's College of Dentistry is a beacon of excellence, recognized worldwide for its contributions to dental education and practice. Aligning your practice with the NYU brand not only elevates your professional credibility but also provides you with the tools to lead in the ever-evolving field of dentistry. This prestigious program offers the mark of distinction that sets you apart in the healthcare industry.

Upon successful completion of all program requirements, a certificate of achievement will be awarded by the Linhart Continuing Dental Education Program at New York University College of Dentistry. Please note that this certificate program is not applicable to any formal degree program but is an acknowledgement of the participant's commitment to professional growth and development. The final decision on meeting all requirements is the responsibility of the Assistant Dean for Continuing Education.
