

PERIO MASTERCLASS

360 Surgical

8 DAYS IN-PERSON COURSE
2 MODULES OF 4 DAYS EACH

DENTAL LEADERS ACADEMY

DLA

Prof. Stefano Parma Benfenati

About this course

The **Perio Masterclass 360* Surgical** represents the most important step in the surgical periodontology approach available in this part of the world.

This is by far the best-selling and most appreciated course by the seventh generation of graduates, introducing new surgical techniques and solutions to complex clinical situations into the professional life of the participants.

This 8-day course targets implantologists, surgeons, periodontology residents, general dentists who want to evolve towards a new clinical competence.

There is no complete oral rehabilitation today without the impact of soft tissue management in obtaining aesthetics, functionality and oral health in general.

Key facts

- Most of the participants fully recover the investment in this course, before its end.
- It is a program that covers all the topics of periodontal surgery with theoretical notions, images, graphic explanations, video explained techniques, live surgery and a lot of hands on.
- It is intended to improve your soft tissue augmentation techniques, simultaneously with implant insertion. Increasing the value and comfort of the patient and simplifying and reducing therapeutic times.
- Dr. Stefano Parma Benfenati is one of the best-known clinicians worldwide, professor and author, member of numerous societies and scientific boards. He is a lecturer, among others, in the continuing medical education program at Harvard Dental School.
- Bonus, you get access to 20 hours of online course before the practical course, so that you learn the basic concepts and concepts, and get the most benefits from the immersion in the practical workshops.

2025 Modules

1st **09-12 Jun**
2nd **14-17 Jul**

Location

Bucharest

Program | MODULE 1

09-10 Jun - FLAPS & RESECTIVE SURGERY
11-12 Jun - MUCOGINGIVAL SURGERY

DAY 1

- Theory Flaps & Resective Surgery
- Clinical Tips & Tricks
- Debate/ Q&A
- ReLive OP & Case discussion

DAY 2

- Clinical Cases debate
- Hands-on - animal model P1
- Hands-on - animal model P2

DAY 3

- Theory Mucogingival Surgery
- Clinical Tips & Tricks
- Debate/ Q&A
- ReLive OP & Case discussion

DAY 4

- Clinical Cases debate
- Hands-on - animal model P1
- Hands-on - animal model P2

Program | MODULE 2

14-15 Jul - REGENERATIVE TECHNIQUES
16-17 Jul - PERI-IMPLANTITIS

DAY 1

- Theory Regenerative Techniques
- Clinical Tips & Tricks
- Debate/ Q&A
- ReLive OP & Case discussion

DAY 2

- Clinical Cases debate
- Hands-on - animal model P1
- Hands-on - animal model P2

DAY 3

- Theory Peri-Implantitis
- Clinical Tips & Tricks
- Debate/ Q&A
- ReLive OP & Case discussion

DAY 4

- Clinical Cases debate
- Hands-on - animal model P1
- Hands-on - animal model P2

Learn about

MODULE 1 **Flaps & Resective Surgery**

- ✓ Gingival surgery: curettage / gengivectomy.
- ✓ Osseous resective surgery: up-dated clinical applications.
- ✓ Flap surgery.
- ✓ Osseous resective surgery in anterior maxillary sextant.
- ✓ Osseous resective surgery on the posterior maxillary sextant.
- ✓ Periodontal tissue response to orthodontic displacement of teethn.
- ✓ Osseous resective surgery on mandibular arch.
- ✓ Pestorative surgery - crown lengthening.

MODULE 1 **Mucogingival Surgery**

- ✓ The modern technique of the gingival graft.
- ✓ Muco-gingival surgery to augment the keratinized tissue in perio & implant.
- ✓ The modified envelope technique by epitelial-connective graft.
- ✓ Muco-gingival surgery for root & implant exposed thread coverage.
- ✓ The treatment of the not carious lesions of the root with gingival tissue recession.
- ✓ Muco-gingival surgery for edentulous ridge augmentation.
- ✓ Soft tissue palatal harvesting techniques.

MODULE 2 **Regenerative Techniques**

- ✓ Classification of the bone defects.
- ✓ G.T.R. - basic concepts, rationale, and its evolution over the years/ materials & surgical procedure step by step.
- ✓ Periodontal gore-tex material for GBR.
- ✓ E.M.D. .
- ✓ Papilla preservation techniques & gtr in the anterior maxillary sextant.
- ✓ Novel regenerative approaches.
- ✓ To save or to extract from my 35+ years of clinical experience.

MODULE 2 **Peri-Implantitis**

- ✓ Diagnose the clinical conditions that lead to unfavorable remodeling of peri-implant soft and hard tissues.
- ✓ Get access to the exposed implant surface to optimize step by step decontamination or conditioning.
- ✓ Identify the clinical situations in which to use the new heterologous matrices for peri-implant soft tissue augmentation.
- ✓ Describe indications and select perio-implant-prosthetic operative protocols in peri-implant bone reconstruction.
