

Target audience

DLA Sales Brochure

This course is tailored for dentists with at least two years of experience in implant dentistry and a track record of placing several hundred implants. It is ideal for those who wish to explore a session from the 4-module program, "Current Concepts in American Dentistry", to determine if the full program aligns with their professional goals. Additionally, it offers a unique opportunity for dentists aiming to elevate their expertise and professional standing through an immersive 5-day experience at the prestigious NYU-College of Dentistry in Manhattan, USA.

CONFIDENTIAL

About this program

This intensive 5-day course offers an in-depth exploration of contemporary implantology, with a strong focus on soft tissue management. Featuring distinguished speakers from NYU's renowned faculty, all experts in clinical training for implantology and soft tissue techniques, the program delivers cutting-edge insights and practical expertise.
Participants also have the unique opportunity to credit this course towards the Advanced Implantology and Periodontology track, a key component of the 'Current Concepts in American Dentistry' program at NYU-College of Dentistry. Recognized as one of the college's most prestigious international postgraduate offerings, this program sets a global standard for excellence in advanced dental education.
